Awkward? Maybe. But how else is a good girl going to find out if she likes being naughty? I might be sweet as cherry pie, but I'm also bold and damn curious. And Gabe is charming, trustworthy, aces at seduction (or so I hear) and—bonus!—willing to give me lessons. But to guarantee it won't ruin our friendship, I have some specific requirements for his instruction. I want these classes to be hypothetical more than hands-on. So what if he's hella sexy? I can handle that, no problem.

I have it bad for Arden. She's bright, brilliant, insanely fun, and I want to take her home and spend all night together—and then spend the day with her, too. When she asks for my help, I see my chance to win her sweet heart by showing her how much fun we can have getting spicy. Trouble is, she has a different idea of what "sex-ploration" should mean. Now I'm going to have to get really clever to win her

over.

Good thing I know exactly how to upend her best laid plans.

It operates as a reference manual - skim the TOC or index, get the page, and stick to the directions detail by detail. The challenge using these sorts of documents is the fact that user manuals can often become jumbled and hard to understand. And in order to fix this problem, writers can try and employ things I call "go over here" ways to minimize the wordiness and simplify this content. I've found this approach to be extremely ineffective most of the time. Why? Because **best laid plans** are considered unsuitable to get flipped through ten times for just one task. That is what online assistance is for.

If you realise your best laid plans so overwhelming, you are able to go ahead and take instructions or guides in the manual individually.
