O Brasil havia se tornado uma república. O império brasileiro, até então tido como a mais sólida, estável e duradoura experiência de governo na América Latina, com 67 anos de história, desabara na manhã de Quinze de Novembro. O austero e admirado imperador Pedro II, um dos homens mais cultos da época, que ocupara o trono por quase meio século, fora obrigado a sair do país junto com toda a família imperial. Vivia agora exilado na Europa, banido para sempre do solo em que nascera. Enquanto isso, os destinos do novo regime estavam nas mãos de um marechal já idoso e bastante doente, o alagoano Manoel Deodoro da Fonseca, considerado até então um monarquista convicto e amigo do imperador deposto.

Essas e outras histórias surpreendentes estão em 1889, o novo livro do premiado escritor Laurentino Gomes. A obra, que trata da Proclamação da República, fecha uma trilogia iniciada com 1808, sobre a fuga da corte portuguesa de Dom João para Rio de Janeiro, e continuada com 1822, sobre a Independência do Brasil.
