In *BLACK+DECKER Deck Codes & Standards* Barker accurately shows how to design and build decks right. Given that every year in the U.S. **more than 120,000 people are injured by deck collapses**, and more than 50 die, following Barker's careful and detailed advice is the surest way for a homeowner to **protect against disaster**.

Using the same **common-sense approach** he used in his bestselling book *BLACK+DECKER Codes for Homeowners*, Barker isolates the aspects of deck building that are the most

frequent sources of trouble and shows--with photos, illustrations, and commentary--exactly how to do it correctly.

Barker's new book is **not only** for DIYers who are building a brand new deck. National deck building codes have **changed significantly in the past five years**: 4 x 4 posts are **no longer allowed** for structural purposes that a few years ago were deemed fine, and **minimum diameter requirements** for concrete posts have **doubled** in many applications. If your existing deck is more than two or three years old, you'll want this detailed but accessible volume.
