And when her new mentor says creatures from other realms are invading this world, she thinks it's absurd. Until he explodes into a cloud of dust and reassembles himself. That makes her doubt.

And then he says only she can stop the invaders. That makes her afraid.

Join Mara Lantern and her companions in a seven-volume science fiction adventure through reality, time and space, where they encounter everything from steampunk dream worlds to artificial humans, from dragons to disembodied spirits, where metaphysics is science and magic is just one
