Nara Velez wakes in a prison pod with no idea how she got there. She quickly learns that things have drastically changed during the time she can't remember—and not just with her situation. The Mareritt—an ancient enemy—now control most of Arleeon and treat her people little better than slaves.

Worse still, the Mareritt also control the drakkons.

Nara has no choice but to work with Kaiden Silva, the warrior she's been chained to and a man who distrusts her deeply. But escaping the Mareritt is only the first of their problems; they soon discover their enemy is working on a brand-new weapon—one with the power to wipe out the last remaining free city in Arleeon, just as they'd wiped out the drakkon

warriors of yesteryear.

If Nara is to have any hope of freeing Arleeon, she must first regain her memories and determine why they were restricted.

But in doing so, she might just unleash hell on the very people she is trying to save.

Because there is magic in her mind... and its source is Mareritt.

It operates as a reference manual - skim the TOC or index, get the page, and stick to the directions detail by detail. The challenge using these sorts of documents is the fact that user manuals can often become jumbled and hard to understand. And in order to fix this problem, writers can try and employ things I call "go over here" ways to minimize the wordiness and simplify this content. I've found this approach to be extremely ineffective most of the time. Why? Because **burn** are considered unsuitable to get flipped through ten times for just one task. That is what online assistance is for.

If you realize your burn so overwhelming, you are able to go ahead and take instructions or guides in the manual individually. Select a special feature you wish to give attention to, browse the manual thoroughly, bring your product and execute what the manual is hinting to complete. Understand what the feature does, using it, and don't go jumping to a different cool feature till you have fully explored the actual one.
