Cannabis Sativa is a true resource for the Cannabis community, providing useful information to enthusiasts and invaluable insights to the seed-buying and pot smoking public. Unlike its competitor, The Big Book of Buds, which features a mere thirty companies that pay to be included and over twenty pages of advertisements, this book is a true reflection of the global marijuana seed breeding movement. Strains were selected based on their relevance to the current market and the strength of their genetics. There are no advertisements in the book and no one paid to be included. Chief editor, bestselling author S.T. Oner, carefully selected all strains based on merit, not advertising dollars. This grassroots philosophy has resulted in the previous release in this series, Cannabis Indica, gaining much attention and praise as well as consistent sales.
