Who would have thought that Marcel Proust, one of the most important writers of our century, could provide us with such a rich source of insight into how best to live life? Proust understood that the essence and value of life was the sum of its everyday parts. As relevant today as they were at the turn of the century, Proust's life and work are transformed here into a no-nonsense guide to, among other things, enjoying your vacation, reviving a relationship, achieving original and unclichééd articulation, being a good host, recognizing love, and understanding why you should never sleep with someone on a first date. master from between the lines of his work.

Here is Proust as we have never seen or read him before: witty, intelligent, pragmatic. He might well change your life.
