Download or Read Online Mitochondria as Targets for Phytochemicals in Cancer Prevention and Therapy Dhyan Chandra Free eBook PDF/ePub/Mobi/Mp3/Txt, Mitochondria as Targets for Phytochemicals in Cancer Prevention and Therapy has three major themes. Theme one describes the current knowledge on environmental and genetic factors that cause cancer initiation and progression, the role of mitochondria in regulating the process of carcinogenesis, and cell death pathways. Theme two focuses on the elucidation of key target proteins that could be exploited for cancer prevention, an overview of phytochemicals in cancer prevention, updates on basic research related to phytochemical action critical for cancer prevention, and translational knowledge on cancer prevention by phytochemicals. Theme three infers on phytochemicals targeting mitochondria for cancer therapy, an overview of the action of phytochemicals on cancer stem cells, updates on the role of microRNA in phytochemicals-based therapy of cancer, and a summary of phytochemicals-based translation research on prevention and therapy for metastatic cancer.

Highlighting the above topics will bring new knowledge to readers in focus areas such as mitochondria, phytochemicals, and cancer research. This will enhance understanding of key issues related to basic and translational scientific research in cancer. Based on its scope and contents, this book is highly relevant to a wide audience including scientists and clinicians from cancer hospitals and cancer research institutions, nutritional biochemists, and cancer researchers in graduate and undergraduate universities.
