But before we get there, there's a bit of light house keeping. Yeah, yeah, yeah - that's all fine and good, but when do you get to play with your new machine?

Mac's are great - they are powerful, streamlined and easy as heck to use - but your files? They're still on a PC and like it or not, you just spent 20+ years using Windows, so there are some adjustments to make.

Before you can show off your slick new Macbook Air or brag about how much faster your machine boots up or how you can find a file in, like, three seconds, you need to make the transition.
