"In the interest of full disclosure, I should mention that I'm a huge Pat Miller fan and follower, and my own training philosophy and methods are very close to Pat Miller's. When I first decided to become a dog trainer and study behavior, I started digging through stacks of books about dog training that all proclaimed to be the "essential" dog training book, and whose authors all claimed to be the ultimate authority on training and understanding dog behavior. There is a LOT of conflicting information out there, and even more so now that there are several dog-training shows on TV. BAM - this is key information to understanding how to be successful in training a dog. It immediately sets the trainer's expectations at a realistic level and helps them understand a dog's limitations and capabilities. Part Two addresses puppy training and

house training; there's also a chapter on problem behavior solving and a section on basic training that is very step-by-step and easy. This is an absolute must-have book for any new dog owner, or anyone who is interested in committing to Positive Training. Rikke Brogaard
