Many of the foods we eat and the habits we have do not support our brains. We no longer get what we need in order to produce essential brain chemicals that keep us energized, calm, focused, optimistic, and inspired. And even worse, our choices could lead to long-term problems, like dementia, Alzheimer's disease, depression, and anxiety. Sadly, if you look at the way most of us live, it seems almost as though

we've chosen a lifestyle deliberately intended to undermine our brain chemistry and our health.

Fortunately, there is a solution. *The Brain Fog Fix* is an easy-to-follow three-week program designed to help naturally restore three of your brain's most crucial hormones: serotonin, dopamine, and cortisol. Rebalancing these chemicals will in turn enable the rest of your brain's chemistry to reach optimal levels. Each week of the program focuses on a different element of your life:

- In week 1, you'll improve your mood by modifying your diet and using cognitive strategies to overcome pitfall thought patterns.
- In week 2, you'll increase your energy by focusing on sleep, exercise, and memory-boosting games.
- In week 3, you'll enhance your spirit through practices that help you connect to something larger than yourself and enable you to rediscover your joy in life.

By the end of this simple program, you'll be thinking more clearly, remembering more accurately, learning more quickly, and unleashing the floodgates of your creativity. And you'll simply feel better - for now and in the long term.
