When the Bolsheviks pulled Russia out of the war in late 1917, the Germans turned their offensive efforts to the Western Front in an attempt to win the war in 1918. But as fresh American troops entered Europe, the strategic scales tipped against Germany.

Much of how World War I played out turned on the plans and decisions of the senior-most German and Allied commanders. *The Generals' War* explores the military strategies of those generals during the last year of the Great War. These six very different men included Germany's Field Marshal Paul von Hindenburg and General Erich Ludendorff; France's Marshals Ferdinand Foch and Philippe Pétain; Great Britain's Field Marshal Sir Douglas Haig; and the United States' General John Pershing. Although history remembers none of them as great captains, these six officers determined for better or

worse how World War I was fought on the battlefields of the Western Front between November 1917 and November 1918.

The Generals' War is a landmark exploration of the generalship that shaped the very framework of modern warfare as we know it today and provides a comprehensive and detailed analysis on the senior commanders of the Great War.
