It was published in 1937 during the Great Depression.[1] It remains the biggest seller of Napoleon Hill's books, selling a claimed 30 million copies over the next 70 years (although Alice Payne Hackett's *70 Years of Best Sellers* suggests the figure was lower).

The text of *Think and Grow Rich!* is founded on Hill's earlier work *The Law of Success*, the result of more than twenty years of research based on Hill's close association with a large number of individuals who achieved great wealth during their lifetimes.

At Andrew Carnegie's bidding, Hill studied the characteristics of these achievers and developed 15 "laws" of success intended to be applied by anybody to achieve success. *Think and Grow Rich!* condenses these laws further and provides the reader with 13 principles in the form of a philosophy of personal achievement.
