At the dawn of the nineteenth century, the great powers of Western Europe treated the United States like a disobedient child. Great Britain blocked American trade, seized its vessels, and impressed its sailors to serve in the Royal Navy. America's complaints were ignored, and the humiliation continued until James Madison, the country's fourth president, declared a second war on Great Britain.

British forces would descend on the young United States, shattering its armies and burning its capital, but America rallied, and survived the conflict with its sovereignty intact. With stunning detail on land and naval battles, the role Native Americans played in the hostilities, and the larger backdrop of the Napoleonic Wars, this is the story of the turning points of

this strange conflict, which inspired Francis Scott Key to write "The Star-Spangled Banner" and led to the Era of Good Feelings that all but erased partisan politics in America for almost a decade. It was in 1812 that America found its identity and first assumed its place on the world stage.

By the author of *A Night to Remember*, the classic account of the sinking of the Titanic—which was not only made into a 1958 movie but also led director James Cameron to use Lord as a consultant on his epic 1997 film—as well as acclaimed volumes on Pearl Harbor (*Day of Infamy*) and the Battle of Midway (*Incredible Victory*), this is a fascinating look at an oft-forgotten chapter in American history.
