Suspecting the FBI itself was behind the attack, Livia reaches out to former Marine sniper Dox. Together, they assemble an ad hoc group to identify and neutralize the threat. There’s Rain. Rain’s estranged lover, Mossad agent and honeytrap specialist Delilah. And black ops soldiers Ben Treven and Daniel Larison, along with their former commander, SpecOps legend Colonel Scot “Hort” Horton.

Moving from Japan to Seattle to DC to Paris, the group fights a series of interlocking conspiracies, each edging closer and closer to the highest levels of the US government.

With uncertain loyalties, conflicting agendas, and smoldering romantic entanglements, these operators will have a hard time forming a team. But in a match as uneven as this one, a collective of killers might be even better.
